Hour Swim Results

Congratulations to the 50 swimmers who completed the Hour Swim in January. We logged only 500 yards less this than last year despite having four fewer swimmers. Thanks to Marie and everyone who counted and cheered everyone on – can't wait until next year!

Jon Steiner Memorial Mile – Volunteers Needed

Please contact Jon Haveman if you are interested in helping with the 1650 this year. **There will be an envelope stuffing "party" after workout on Saturday, March 31st.** Please plan on helping out with our team fundraiser. See www.tammasters.org/poolmile.html for more information.

Marie's Birthday

Jim Stambolis is currently taking contributions for Marie's birthday. There is an envelope up on the bulletin board for donations. You can also mail a check to Jim at 530 Wakerobin Lane, San Rafael, CA 94903 or just catch him on the pool deck at workouts. Any questions, please call at 479-5813.

Around the Pool Deck

We have several authors in our midst and two of them have recently contributed to swim publications. You can read Rick Meyerhoff's story of his World Championships experience in the PMS Newsletter section of the March/April issue of USMS Swimmer due out any day.

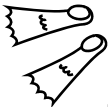

Linda Schoenberger who resides in Reno, but competes with us has written an article for USMS that is posted on the website (www.usms.org) on Triathletes Joining Masters Programs.

Did you know that JoAnne Kambur qualified for this year's Boston Marathon? Great job, JoAnne! We can't wait to hear how it goes!

Party on!

Sheira and Phil had so much fun hosting the last holiday/solstice party that they would like to host a summer solstice party on June 23rd beginning around 5pm! Their only request is to bring about half the amount of food that came to the Holiday party! Bring on summer!

Zura Fin Update

I spoke to the Zura fin representative about when the fins would be back in retail outlets. The company met with such overwhelming success that they totally sold out of their product and then had to switch factories for production. The molds for the fins are now at the new factories and they expect to have the fins back in stores by early summer.
